

ABOUT US

Leading India's Solar Revolution

PAA SOLAR is a fast-growing solar company delivering sustainable and efficient renewable energy solutions across India. We provide end-to-end solar project execution, including industrial & commercial (C&I), residential, and as well as PM-KUSUM and PM-SSY and other government initiatives, ensuring reliable execution, high performance, and long-term value.

PAA SOLAR also operates & SERVE as a trusted solar product Supplier to distribution channel, supplying high-quality solar panels, inverters, and energy storage systems in India & **and international markets.** Through a strong and expanding network, we deliver durable, efficient products that support long-term performance and a cleaner, greener future.

With proven expertise Team in government projects, PM-KUSUM schemes, commercial, industrial, and utility-scale solar installations, the company ensures reliable execution, high performance, and long-term value for every project.

Director Message:

PAA SOLAR is part of EKCHAKRA GROUP. PAA SOLAR believes that today generation is installing the solar basically they are giving gift and blessing to the next generation. Also this generation is giving lesson to invest such to Product / Project which can give more benefit to next generation, This generation want to give Smoke free world, freedom for electricity, giving lesson to keep saving tree and Many more.

PAA SOLAR believe these ideologies so that PAA SOLAR Provide Solution not short term or cost effective. PAA solar look 30-40 yrs. and according that they give plan, service, cost & support.

For this our team First try to understand you and your theme, your requirement, then provide all best possible aspect for long time & durable Product into your project, then after mutual agree we provide Solution.

We always welcome New Idea, New Product, New services, if you have such a Idea Kindly share with me.

Awaiting such Idea Thanking you!

TEAM

CGM – Channel & Project

MR. Pandey is an accomplished industry professional with over 27 years of experience in the EPC (Engineering, Procurement & Construction) sector and solar module manufacturing. He brings deep expertise in managing large-scale projects—from planning and execution to commissioning, quality assurance, and lifecycle performance. Throughout his career, he has played a crucial role in delivering transformative renewable energy and infrastructure developments across India. His leadership style combines strategic vision with strong technical understanding, enabling organizations to enhance productivity, operational excellence, and long-term sustainability. At PAA SOLAR, he contributes significantly to strengthening innovation, product quality, and clean energy initiatives, supporting the company's mission to accelerate the transition toward reliable and affordable renewable power.

General Manager - Sales

Dinesh Kumar is an accomplished Sales professional with over 10 years of experience in the power and energy sector. As– Sales, he brings a strong track record of driving business growth, building customer relationships, and leading high-performing teams. Over the years, Jitendra has worked with respected industry brands including Exide, Lumionous, and UTL & Others, gaining deep knowledge of batteries, power systems, and solar solutions. His expertise spans channel development, corporate sales, dealer management, and market expansion. Known for his customer-first approach and result-oriented mindset, Jitendra plays a key role in strengthening Rayax's market presence and delivering value-driven solutions across India. His commitment to excellence and strategic sales leadership continues to support the company's vision for sustainable growth.

Manager - Human Resource

Priyanka is an experienced Human Resources leader with over 15 years of expertise in the EPC Company. She has worked with several renowned organizations, developing strong capabilities in talent management, organizational development, and HR operations. As HR Manager at PAA Solar, Priyanka plays a key role in shaping a supportive, performance-driven workplace culture. Her strengths include recruitment, employee engagement, policy implementation, and workforce planning—ensuring the right people, systems, and processes are in place to support business growth. Known for her professional approach, problem-solving skills, and people-first mindset, Priyanka brings a valuable blend of industry knowledge and human insight, helping drive productivity, collaboration, and long-term team development at PAA Solar .
